What is Flexible Packaging?

Flexible packaging is any plastic packaging that is able to flex or wrap such as plastic pouches, wraps, and bags.

Recycle Flexible Plastic Packaging in Your Recycling Bin or Containers

Flexible plastic packaging is the second largest packaging material in the United States. It is lightweight and made from plastic film and very thin layers of other materials like metal. Residents can now place it in recycling bins or containers.

BY PROPERLY RECYCLING AND ADDING FLEXIBLE PACKAGING MATERIALS YOU ARE HELPING PROTECT THE ENVIRONMENT!

- ♻ Increasing waste diversion from landfills and reducing litter
- ♻ Supporting the local economy and jobs

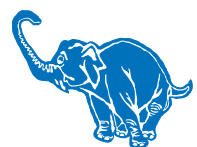

Students and Residents

Put flexible plastic packaging in your recycling bin or container.

By upgrading our equipment we can now include a wider range of materials. Flexible plastic packaging can now be placed in your recycling container.

Together We Can Make An Impact — Help Us Recycle More!

J. P. Mascaro & Sons provides comprehensive waste solutions for West Chester University's students and residents. We care about the environment and we are doing more to better serve you. By adding flexible packing materials to our list of what can be recycled we are helping to reduce waste. We only ask that all your recycling materials be clean and contaminant free. We'll do the rest.
