

## Entrance Requirements

All prospective music majors must be admitted to the university and complete an audition on their primary instrument as well as the following requirements:

- Sing a song from any genre of music (pop song, children's song, etc.), while self-accompanying on piano or guitar, if possible.
- Submit an essay prior to the audition through the admission portal, no more than 2 pages, answering the following questions:
  - Why are you interested in becoming a music therapist?
  - Based upon your experience, please describe at least one example as to how music therapy may provide benefits to clients and patients.

*Please Note: It is recommended that prospective music therapy majors either observe a music therapy session or speak with a board-certified music therapist prior to applying for the degree program. This will allow prospective candidates to have a better understanding of the field before auditioning.*

## Information

For more information on West Chester University's Music Therapy program, please contact:

For more information on the field of music therapy, consult the American Music Therapy Association at [www.musictherapy.org](http://www.musictherapy.org).

For more information on music therapy board certification, consult the Certification Board for Music Therapists, Inc., at [www.cbmt.org](http://www.cbmt.org).

West Chester University's music therapy degree program requires approximately 250 pre-internship clinical training hours and approximately 950 hours of internship. This program provides students with the experience and competencies required to become candidates for music therapy board certification. Once a candidate, a student may take the certification examination administered by the **Certification Board for Music Therapists (CBMT)**. Upon passing this examination, the candidate earns the credential **Music Therapist—Board Certified (MT-BC)**, and thus attains professional status as a music therapist.

The music therapy program is based upon educational guidelines specified by the **American Music Therapy Association (AMTA)**. The program is approved by AMTA and accredited by the **National Association of Schools of Music (NASM)**.
